

## APPENDIX 6

### Standardized Safety Systems, Checklists and Logs (Level 2 Requirement)

Appropriate supporting documentation identifying continuous, ongoing tracking and verification of the following activities:

#### DIVE OPERATIONS

Compressor Maintenance

- Oil changes
- Filter Changes
- Air Tests

#### SCUBA CYLINDERS

- VIP
- Hydro Testing

#### SCUBA EQUIPMENT MAINTENANCE (IF APPLICABLE)

- BCD's
- Regulators
- Masks

#### SAFETY EQUIPMENT VERIFICATION (VESSEL(S) AND BASE)

- First Aid Kits
- Oxygen
- AED

#### PRE DIVE ACTIVITY

- Vessel Orientation and Briefing
- Diver and Dive orientation
- Entry/Exit procedures
- Equalizing
- Depth/time of dive
- Safety Stop procedures
- Map presentation of dive site
- Lost Diver Procedures
- Diver recall system, process

#### POST-DIVE ACTIVITY

- Post-dive roll call
- Notation of Depth, in/out of water and total dive time for every diver
- Debriefing

#### BASE OPERATIONS

Building Maintenance and Upkeep

- Interior
- Exterior

Vehicles

- Fluid changes
- Documentation
- Licensing
- Insurance
- DOT certifications (if, where applicable)

Communications (vessel(s) and base)

- Radio(s)
- Cell Phone(s)
- Land Line
- Internet access

Training Materials (Medical, Diving, Operations, General, HR)

- Current Versions

Training logs

- First Aid certifications and expiry dates
- Particular licenses (skipper/driver license)
- Internal emergency training
