## Restube

Image	Description	Price (Vat Excl.)
	<b>RTBA - RESTUBE Basic</b> For activities around water The simple bag is worn with its waist belt. It is reduced to its basic function and is perfect for water activities with the family, in your free time, as additional tool aboard a ship, while fishing or canoeing.	€ 49,14 (+ VAT) Non member
		€ 46,68 (+ VAT) Member
	<b>RTCL - RESTUBE Classic</b> For activities in water. The stylish pocket can be worn horizontally or vertically at the hip. When mounted vertically the bag has minimal drag while swimming. In addition, a whistle and a small pouch are integrated. Perfect for swimming, triathlon, open water or any leisure time in the water.	€ 61,43 (+ VAT) Non member
		€ 58,36 (+ VAT) Member
	<b>RTSW - RESTUBE swim</b> Smaller & lighter – perfect for swimmers Our RESTUBE swim is the next logical step of the RESTUBE idea. With a weight of just around 210 g it is the lightest and smallest Restube of all times. Because of its compact size and its ultralight material, it is perfect for active and ambitious swimmers. Still the buoyancy of the buoy is 75 N, enough for all body sizes.	€ 73,73 (+ VAT) Non member
		€ 70,04 (+ VAT) Member

	<p><b>RTSP - RESTUBE sports</b> For rough use. The robust pocket with its splint closing system and the exchangeable belt system can be mounted directly to the harness or at the belt. It is for rough use and perfect for kite, wind and wave surfing or SUP. The RESTUBE sports also can be used for any other water related activities. More often professionals are using it for additional personal self-protection out there in the field.</p>	<p>€ 81,93 (+ VAT) Non member  € 77,83 (+ VAT) Member</p>
	<p><b>RTLG - RESTUBE lifeguard</b> For professionals to rescue others RESTUBE lifeguard was developed in close cooperation with the SLRG (Swiss lifeguards), lifeguards from Germany, Wasserwacht (Germany) and RNLI (UK). RESTUBE is official "Safety Partner" and supplier of SLRG. The first casualty was rescued with RESTUBE lifeguard by a Swiss lifeguard out of a river. RESTUBE lifeguard is so small that you can always carry it with you in service.</p>	<p>€ 114,71 (+ VAT) Non member  € 108,98 (+ VAT) Member</p>
	<p><b>RESLED - RESTUBE LED-light</b> Increase your visibility by attaching this bright Restube LED light, which comes with a reflective tape, to your buoy. Reflects and shines, if necessary, for more water safety.</p>	<p>€ 12,53 (+ VAT) Non member  € 11,90 (+ VAT) Member</p>
	<p><b>RESREF - RESTUBE Reflector</b> With our RESTUBE reflectors made out of 3M™ Scotchlite™ Reflective Material you'll be able to increase the visibility of your Restube in low light conditions. Developed by 3M™ to hold up to SOLAS (Safety of Life at Sea) regulations, our RESTUBE reflectors will stick to your Restube even in rough conditions and in the water.</p>	<p>€ 5,74 (+ VAT) Non member  € 5,45 (+ VAT) Member</p>

	<p><b>RESQR - RESTUBE Quick release</b> Once you've triggered your Restube, you can release the Restube buoy at any time by simply pushing away the red quick release case. With the RESTUBE quick release you get even more freedom and safety while surfing, kite surfing or stand up paddling.</p>	<p><b>€ 16,38 (+ VAT)</b> Non member  <b>€ 15,56 (+ VAT)</b> Member</p>
	<p><b>RESXL - RESTUBE XL belt</b> Our standard belt length of 1.15 m is too short for you? Don't worry! With our RESTUBE XL belt you can get up to 1.55 m of belt length and you'll be able to wear your Restube comfortably at all times.</p>	<p><b>€ 8,19 (+ VAT)</b> Non member  <b>€ 7,78 (+ VAT)</b> Member</p>
	<p><b>RESAB - RESTUBE Active belt</b> During long distance swims or extended surf sessions – especially without wearing neoprene – it is possible that your Restube doesn't sit well in the middle of your back, which is the ideal position for both activities. Thanks to our active belt with the integrated Restube stick, your Restube stays steady on your back even while swimming or surfing for long hours without a neoprene.</p>	<p><b>€ 10,65 (+ VAT)</b> Non member  <b>€ 10,12 (+ VAT)</b> Member</p>
	<p><b>RESCAR2 - RESTUBE Spare cartridges</b> <b>RESTUBE Spare cartridges.</b></p> <ul style="list-style-type: none"> <li>• 16 g CO2, threaded</li> <li>• with green safety clips</li> <li>• Meets DIN EN ISO 12402-7, sea water proof</li> <li>• For transport by air follow <a href="#">IATA-rules</a></li> </ul>	<p><b>€ 7,38 (+ VAT)</b> Non member  <b>€ 7,01 (+ VAT)</b> Member</p>

## ENOS

Image	Description	Price (Vat Excl.)
	<b>ERX-BZ - ENOS Receiver with mobile screen and Bluetooth connection</b>	<b>€ 1920,16 (+ VAT)</b> Non member
	<p>With this version of the ENOs receiver, it is possible to remove the screen from the housing (yellow case), making it easier to walk around with it on the boat, searching for the missing diver.</p> <p>A Bluetooth connection between the hardware in the yellow portable case and the mobile screen makes sure the screen receives the needed data.</p> <p>The receiving range is up to 60 meters – long enough even for huge liveaboards.</p>	€ 1728,14 (+ VAT) Member
	<b>ERX-I - ENOS® - Receiver, portable, INDOOR</b> <b>ENOS® -receiver with touch screen and portable radio receiving antenna and socket for additional external GPS antenna, battery charger 40545.</b> <b>ENOS® - Electronic Rescue and Locating System</b>	<b>€ 2567,23 (+ VAT)</b> Non member
	<p>The Electronic Rescue and Location System ENOS® is a rescue system, for divers lost at the surface, combining two reliable techniques: GPS-navigation and radio transmission.</p> <p>The ENOS®-System runs self-contained and self-dependent and does not depend on the aid of other rescue institutions and services. It consist of two units, the ENOS®-Receiver (aboard the dive boat) and one or more ENOS®-Transmitters (carried by the divers).</p>	€ 2310,51 (+ VAT) Member

	<b>ETX-M - ENOS® -Transmittor / Beacon</b> ENOS® -beacon with manual switch incl. pouch and carabiner/shag hook to attach it to diving equipment.	<b>€ 443,70 (+ VAT)</b> Non member  € 421,52 (+ VAT) Member
	<b>EF5-S - External radio receiving antenna (Set)</b> 0,6 Meter antenna with mounting base or angle, 5 meters Coaxial cable, TNC-/ N-plug.	<b>€ 324,38 (+ VAT)</b> Non member  € 308,16 (+ VAT) Member
	<b>EG10-S - External GPS-Antenna (Set)</b> GPS-Antenna mounting base or angle, 10 meters Coaxial cable, BNC-plug.	<b>€ 149,58 (+ VAT)</b> Non member  € 142,10 (+ VAT) Member
	<b>EP-36 - Pouch for ENOS® -Beacon</b> Spacial pouch, secure mounting of ENOS®-Beacon to the diving equipment with carabiner/shag hook.	<b>€ 20,16 (+ VAT)</b> Non member  € 19,15 (+ VAT) Member

## Diving Safety

Image	Description	Price (Vat Excl.)
	<b>CEA50 - Extreme Antifog (Chanteclair) 50ml</b> The ideal product to be applied on the glass lenses of diving masks which have been previously treated with the ABSOLUTE CLEANER and on the polycarbonate lenses of swimming goggles.	<b>€ 6,47 (+ VAT)</b> Non member  € 6,15 (+ VAT) Member

## Books in English language

Image	Description	Price (Vat Excl.)
	<b>BKDTE - DIVE AND TRAVEL MEDICAL GUIDE</b> by Edward Thalmann; 92 pages; softcover; 2010 This book offers extensive coverage of dive safety and health with information on dive and travel safety. It is an essential tool for preventing, identifying and treating scuba diving injuries.	<b>€ 7,40 (+ VAT)</b> Non member  <b>€ 7,03 (+ VAT)</b> Member
	<b>BKGOTE - Give or take? a dilemma for the thinking diver</b> By Saad Dawood Bhatti; 81 pages; softcover, 2017 Out-of-air emergencies are thankfully uncommon. Nonetheless, one of the first things divers learn is how to share air with a buddy. And this is where it starts to become complicated. Not only are there different ways to share, but opinions (on which approach is better and why) remain divided. Meanwhile, the choice itself is generally misunderstood and sometimes misrepresented.	<b>€ 13,00 (+ VAT)</b> Non member  <b>€ 11,70 (+ VAT)</b> Member

**BKUPE - Under Pressure**

Under Pressure -Gareth Lock -  
Softcover – 333 pages  
Most incidents and accidents are down to “human error”. Unfortunately “human error” is normal and we can’t get rid of it. However we can reduce the likelihood if we have an understanding of human factors and develop our non-technical skills.

### BKSGE - Shamandura Generation

"Shamandura Generation is an exhilarating portrait of Sharm el Sheikh's diving community. Between boats, corals and bars the characters of Shamandura Generation live and work disremembering about their age. A surreal Egypt Riviera, populated by even more surreal tourists and locals, and a marvellous Red Sea stand as a perfect set for this novel.

Shamandura generation is a book about all those who left with a diving gear bag on their shoulders in order to

## Libri in lingua italiana

Image	Description	Price (Vat Excl.)
	<p><b>BKDCI - Decompressione al Computer</b> Mario G. Leonardi - Edizione 09/2016, pag.240, Brossura, Formato: 24x17</p> <p>Questo libro intende indicare con quali mezzi matematici, con quali "formule", i moderni computer subacquei riescono a calcolare con precisione la profondità a cui siamo immersi, ma anche come questi cercano di calcolare, cosa ben più complessa e con risultati ben più incerti, il tipo di decompressione che dovremo effettuare per evitare un'embolia o la quantità di miscela respirabile che sarà necessaria per effettuarla.</p>	<p>€ 22,00 (+ VAT) Non member</p> <p>€ 20,90 (+ VAT) Member</p>
	<p><b>BKOI - "L'orecchio in immersione"</b> Ferruccio Di Donato; 207 pag.; copertina morbida; Edizione 2017</p> <p>Oggi, l'interesse per le problematiche della compensazione e per la patologia otologica da immersione è aumentato fortemente e il desiderio di conoscere è più vivo che mai, perché, subacquei e apneisti hanno acquisito la consapevolezza che praticare attività subacquee in maniera inconsapevole aumenta i rischi e riduce la possibilità di ottenere i risultati voluti.</p>	<p>€ 22,00 (+ VAT) Non member</p> <p>€ 20,90 (+ VAT) Member</p>
	<p><b>BKMDPI - MANUALE DI DIRITTO PRATICO PER L'ISTRUTTORE SUBACQUEO</b> Aldo Cimino, Martina Feltrin, Formato: 15 x 21 - 100 pgs., 2011</p> <p>Il presente manuale inaugura una nuova collana "Il diritto sott'acqua", nata in collaborazione tra i due autori. Dedicato all'Istruttore subacqueo professionista e alle sue problematiche legali, il volume si propone come utile strumento di informazione e di consultazione e necessario complemento culturale e formativo per chi già pratica o decide di praticare l'attività subacquea con professionalità e competenza.</p>	<p>€ 16,00 (+ VAT) Non member</p> <p>€ 15,20 (+ VAT) Member</p>

**BKDFDI - Deco for Divers**

Una guida per il subacqueo alla teoria e fisiologia della decompressione.

Powell Mark – Pagine 278 - pubblicazione maggio 2011

In questo libro potrai trovare una completa ed aggiornata panoramica dei principi base della fisiologia e delle teorie della decompressione. Mark Powell ha scritto un testo che per la prima volta consente al subacqueo medio di comprendere appieno i principi su cui si fonda questo affascinante e critico aspetto dell'immersione subacquea.

**BKPDM - Pesci del Mediterraneo**

di Stefano Gargiullo e Claudio Gargiullo - Pagine: 216

Finalmente di nuovo disponibile il classico testo "Pesci del Mediterraneo", nel quale vengono illustrate con splendidi disegni a colori ben 378 specie di pesci che vivono nei nostri mari. Come riconoscerle, abitudini di vita, distribuzione geografica, sistemi di pesca. Insomma tutto quanto è necessario conoscere per chiunque, pescatore o biologo o osservatore subacqueo, voglia avere a disposizione un testo di facile consultazione e di immediato utilizzo.

**BKCPI - Creature pericolose dei mari e degli oceani**

di Guido Sebastiano – pagine 224 - pubblicazione 2013

Chi si imbatte in un grosso pelagico o in un coccodrillo non ha certamente bisogno di essere illuminato circa la pericolosità dell'incontro. Ben diverso è l'impatto con organismi di piccola o minima taglia, verso cui non esiste timore reverenziale: se non sono presenti più che evidenti aculei e armi di difesa e non si conosce l'animale, si può sottovalutarlo, talvolta con rischi mortali.

### BKLD SI - Le leggi della subacquea

Di Luisa Cavallo con il contributo di M.Chines. F.Cinelli. L.Fancello, A.Fiorito, S.Gargiullo, C.Mocchegiani Carpano. Edizione 2012, pagg. 576 brossura

In Italia, a differenza di molti altri Paesi, non esiste un testo unico che abbia come oggetto esclusivo la regolamentazione delle attività di immersione, ma bensì una pluralità di norme, spesso di difficile identificazione per il loro campo applicativo. Con questo testo gli Autori offrono un completo sguardo d'insieme sul panorama normativo che regola lo svolgimento dell'attività subacquea.

### BKRCPSI - Responsabilità civile e penale nelle attività subacquee

De Francesco Fabrizio - D'Adamo Giancarlo - Edizione 2011, pagg. 199, Formato: 25x21

Da tempo la subacquea ha abbandonato la propria natura di attività pionieristica, praticata da pochi coraggiosi con un elevatissimo livello di preparazione e di consapevolezza, diventando una vera e propria attività turistico-ricreativa di massa, proposta a sportivi e turisti con modalità spiccatamente commerciali. Una simile evoluzione rende oggi quanto mai necessario porsi il problema del regime giuridico della responsabilità degli operatori professionali.
